

Single Head Welding Machine

WSA-1-E

Offering the ultimate in versatility in an easy to use, compact machine, the Wegoma WSA-1- E is the ideal solution for a range of applications including reverse butt and cill welding.

Large setting plate for double RBW & 225 cill welding at 45°

Variable angle fences

Process Capability

- Variable angle fences - enables welding of angles between 30 - 180°
- Double-reverse butt welding due to large setting & heater plates
- Automatic adjustment of all welding times & parameters via Siemens control
- Easy change Teflon procedure
- Support arms fitted - as standard
- Fully guarded
- Two-stage safety clamping - foot pedal operated
- Reverse cycle facility - enables operator to reposition profile
- Heated restriction knives - adjustable from 0.5 - 2.0mm (standard)
- Fourth corner welding cycle - removes the setting plate for small frame/sash sizes
- Corrosion-proof guide rails with INA bearings
- Maintenance friendly

Technical Data

Length.....	1000mm
Width.....	1000mm
Height	2350mm
Weight	310kg
Profile Width Max	140mm
Profile Height Max	210mm
