

BLITZ ALVA 500

The FomIndustrie BLITZ ALVA 500 is a double-head saw with a \varnothing 500mm tungsten carbide blades. Arriving with a mobile head with motorised movement and electropneumatic control of the head tilt, the BLITZ ALVA 500 is a super-efficient addition to any fabrication suite.

*Available in 4, 5 and 6 meter versions.

Process Capability

- 2 \varnothing 500mm tungsten carbide blades
- Guard for cutting area
- 3m mobile head roller table
- Retractable pneumatic intermediate profile support
- Height of profile measuring device
- 3 horizontal vices
- Lubrication via atomiser
- Extraction of chips and fumes
- USB port

Technical Data

- Minimum cutting capacity: 305mm
- Maximum cutting capacity: 4,000, 5,000 or 6,000mm depending on model
